***We are rethinking innovation.
It's time to rethink your future.***

What Increo Does

Software for innovation. We build systems that help companies share ideas. Companies need innovation as their competitive advantage, so we're making the ideas of employees, customers and partners heard.

Exciting market strategy. This is not your parents' enterprise software market. We're delivering value to each individual, collaboration to each department, and success to whole companies.

What You Will Do

Join a small team. We don't mean a small team of 50, or a team of 5 in a company of 15,000. We mean a very small, talented team with speed as our advantage.

Define the strategy. Work with expert advisors to define and execute on a sales and marketing strategy. Forge relationships with early customers and poise the company for rapid growth.

Have an impact. Work on software that will enable people around the world to have an impact on their companies.

We are looking for dedicated, talented teammates.

Director of Sales and Marketing. You pride yourself on your great ideas, your knack for working with people, and passion for solving tough problems.

We're looking for:

- 2+ years experience in product management/marketing, management consulting, or another field that provides insight into the way companies evaluate and purchase software.
- Proven leadership skills.
- Fascination with the unique challenges in both consumer and enterprise software markets.

What Sets us Apart

Design. Usability. Consumer. Enterprise. Intrigued? We hoped so.

About Increo

Location: Mountain View
